### Introduction

Earl Miller has experience working with the world's top nude models as a Penthouse Magazine photographer. He also has an eye for babes, and his website offers all of his glamorous porn photo and video collections. If the women themselves won't make you cum in your pants, the fact that he has over 1,000 photo sets and over 400 videos certainly will.

### Adult Review

Earl Miller - even if you don't know his name, you've certainly seen his photography over the years. He's one of the best in the business at getting glamour babes to show off their nasty sides, whether they're groping at girls or taking a dick down their throat.

Earl Miller is impressive on many levels, and the first impression of his member's area helps to reinforce this overall aura of awesomeness. The first thing you'll notice, other than an all blond babe threesome, is the daily updates. That's always welcome to see, especially when the porn dollar needs to stretch further than ever these days. A mix of solo masturbation, lesbian babe, and hardcore pops in your face (well, not literally, unless you were aiming your dick at your face and REALLY excited about the preview thumbs). You can run along the top of the page for basic navigation, or choose your poison down the side navigation, which features categories like amateur, pornstars, and threesomes. Although Earl Miller does have an amateur section, he mostly focuses on big name pornstars like Cytherea, Amy Ried, and Ginger Jolie.

The photo section is The Tongue's first stop, and it was impressive indeed. There are 1,222 photo sets with an average of 50 photos per set. The photography is excellent as expected and shown at 850x1280. The settings, the angles, the lighting - it's pretty close to perfect. Each Earl Miller photo gallery gives you the option to view small or large photos, as well as switching the slideshow off and on. If you want to save the set for later, you can download a zip file of it. If a babe has more than one set within the massive photo library, Earl Miller includes a link right below the set.

The video section also has an impressive collection of 475 videos. The video options are for the full scene only, and allow you to stream wmv, mp4, mov, or flash, or you can download all of them. Although some videos are divided into individual parts, none of the videos are under 10 minutes long. I was expecting to see higher quality videos, to be honest - the best looking ones at 720x404 and 1mbps. The production value is good, as expected, and the angles capture that porny babe goodness in all of its glory.

Now it's time for The Tongue to venture into the extras section. Can we say bloopers and outtakes, because that's what Earl Miller has plenty of! There are only three outtake sets and 2 compilations, but something is better than nothing. The blog section looks like your typical babe blog, and is worth a look for the pretty pictures. It's not really behind the scenes like some payscale blogs, however.

Earl Miller is perfect for those of you that love to combine sexy babes with hardcore action. He's an incredibly accomplished photographer and has translated this to the web scene well. The collection is massive, well organized, and updated daily. The babes are high profile and highly hot, and there's really not much to complain about. If this sounds like the kind of site that's right up your alley, then you need to get on over here.

### Porn Summary

Earl Miller has a gift for capturing the best in nude models and pornstars alike, whether they are masturbating or choking down a big dick. The collection is huge, the quality is great, and the daily updates are boner-inducing 365 days a year!
