Introduction

One of the most original websites to hit the adult market in over a year, Money Talks is like a social experiment that found its way out of the lab and onto the streets. Ordinary people are put to the test and asked what they are willing to do to earn some cold hard cash!

Adult Review

This may sound strange but a lot of the best content on Money Talks is not really the sexual stuff. Sure, the sex clips are damn good but they have so much more. They offer a guy cash to eat a handful of cigarettes, they ask people if they will let a giant dude punch them in the chest on camera for a few bills, it is amazing to see what some people will do when a crew waives a camera and a few \$50s in their face!

As to the sexual stuff, will a hot bartender go into the mens room and suck off one of the crew for a few hundies? How about hot babes asked to go topless on the beach? What would it take exactly to get some female track athletes out of their warm-up uniforms and into a threeway? Watching these dudes ask is almost as much fun as seeing the results. You will be laughing while your cock will be cumming. The worst part of Money Talks is you are bound to make a mess and have to wipe it up when yer done!

The site was released recently so it doesn't yet have a gigantic back catalog but the content that is in their members area is top shelf and you will not find anything like it anywhere else on the web these days. Also, your membership gets you free full access to 20+ other premium websites, some of which are reviewed as well and listed on the right side of this page. With the Network of sites updating every week your cock will never again be sitting around with nothing to do!

There is no DRM coding on the files so you can keep anything you download in your permanent collection. Each and every episode has large format broadband enhanced files and shorter well segmented dialup friendly versions as well. They even offer streaming versions for viewers who are afraid of getting caught with porn on their home or work computers.

To give you an idea how cool the producers are, they actually ask you a five question survey after you sign up to make sure the kind of smut they are making is exactly the kind of smut you want to be watching. When The Tongue mentioned one of their updates was incomplete we were told it would be fixed immediately and minutes later the site was back to being damn near perfect. Responsive customer support is rare in this industry and theirs deserves to be applauded.

At the standard \$24.95, the price of the membership is pretty reasonable but if you sign up using the Free Preview of Money Talks button on this review you can get a special discount price of only \$17.95 for the exact same full monthly access!
