### **Introduction**

For years people have been waiting for a true Porn home page. A place where all kinds of sex could be watched and enjoyed without limits. Finally, Porn.com has come to fulfill your fantasies! With nearly 38,000 videos, some exclusive content and an amazing user-interface... this is a site that really lives up to its name. Best of all, at just \$9.95 per month it makes porn as affordable as it is desirable!

### **Adult Review**

Porn.com is an amazing collection of videos with a wide variety of fantasy models and sexual scenarios in a very easy to use interface. The site allows you to search for exactly the kind of Babe you are in the mood for with just a single click. For less than 10 bucks a month you can own the world's largest porn collection!

Unlike other massive sites on the market, Porn.com brings you a huge non-exclusive movie archive but also provides you with access to 30 exclusive sites as well. That means you can pick and choose your porn and enjoy both a huge collection of quality content and rare scenes not to be seen anywhere else.

Along with all those videos, you also get access to amazing picture galleries. The pictures are available to view in a point-and-click gallery, viewable in resolutions as high as 1024x700. How many pictures do they offer you? 1,343,359! No that is not a typo. This is Porn.com!

Porn.com also tends to stay away from the most extreme kinds of content. The site offers lots of hardcore action but it also manages to stay out of the 'sick-and-twisted' kinds of fetish content that some other sites cater to. If you want gorgeous babes in fantastic fantasy videos without the more bizarre kinds of stuff interrupting you then Porn.com is the place to be!

When it comes to pricing this site becomes even more extraordinary. You can join Porn.com and get full monthly access to all of the movies and pictures they offer for just \$9.95 per month which is less than one third of the price many other sites charge!

You may see Porn.com advertised at higher prices from some other sites, but if you join through our free preview of Porn.com on The Tongue you will be able to get full access for less than ten bucks!

### **Porn Summary**

Back in the days when the internet first started to become popular, everyone had an AOL account. It was simple, it worked perfectly well and it gave you everything you wanted. Porn.com does the same thing for sex. If you want access to a massive amount of movies and pictures in an amazingly easy to use interface for a price that is incredibly inexpensive, take the tour and see Porn's home page for yourself!
