Introduction

Water Bondage is a site for hardcore B&D disciples who want to go a step deeper down the dark path of role play and power transfer. The introduction of methods that are more extreme than most an amateur might try with female stars of the smut business serving as willing captive starlets makes this an exciting option for any serious hardcore bondage fan. Keep in mind, these are professionals who take great precautions to ensure the safety of the performers, these are not tricks you should try at home.

Adult Review

Standard BDSM is a thrill for willing participants who enjoy dabbling in the dark side of kink. There are many ways to get yourself and your partner off by playing these kinky games, but most people simply do not have the means to take it to the same level as Water Bondage does.

This hardcore bondage site takes submissiveness to the extreme by producing spectacular scenes where water is introduced as the element of fear, pain, and ultimately pure pleasure. You'll see brand name porn sluts shed their vanilla exteriors and be put through some sexy captive paces that include submersion, high-pressure hoses, and other kinky water devices that will make even the most deviant bondage devotee gasp with surprise.

This site is massive. It's been online for well over 5 years and has 274 exclusive Water Bondage scenes that will take you months to watch all the way through. Every episode ranges from 40 to 80 minutes in length, and is available in a few different formats for viewing. Downloads are encoded in WMV, Real, and Ipod formats, but you won't be able to download any of the full length clips. The highest resolution is HD, and set at 1280 x 720. The Real player-only streams are offered up in two different resolutions, and the scenes are available as full length. Unfortunately the site has stopped updating. The last update is dated from April 2008, and there's no mention of a new update happening anytime soon.

The picture sets at Water Bondage are equally impressive. All episodes feature several hundred high resolution photos presented in 1200 x 800. They are professionally shot and look great, in fact you'll feel like you'll need to towel yourself off because the dripping water looks so crystal clear. Zip files are available so you can download the entire set at once, and trust me, you'll use this option often.

One of the most novel aspects of Water Bondage is its member participation. Members are invited to post their comments that appear right on the homepage of every scene, and often the site admins will respond back to the feedback that's left. This fosters a sense of community and will leave you coming back to check the same updates over and over again, so you can see and respond back to other similar-minded people's discussions.

The update that features the sexy black-haired Dana Dearmond is pure unadulterated kink. Dana gets suspended by a complicated array of rope while her tits and other private parts are teased and toyed with. All this happens before she is shown a huge glass-encased pool of water that she has a hard time getting used to, but that doesn't stop her captor from dunking her.

The price of a membership to Water Bondage is \$29.95 per month and you don't even have to worry about recurring billing, because it's a one time charge. But with this much thrilling content to go through, you won't forget to sign up if it's getting you off! No short term trial options are offered either, but again they're not really necessary.

Porn Summary

Water Bondage is grade "A" hardcore with amazing over-the-top water-oriented production values that will leave you breathless--literally!
