Introduction

Lesbian sex sites are usually owned by big companies who get girls to fuck each other the way some men want to see them. Hotberries.net is a small boutique porn site owned by real lesbians who decided to make a lesbian sex site the way women really want to have sex. It's a softer, more romantic and in some ways even hotter girl on girl experience to watch!

Review Rating

The Tongue says 'A different kind of lesbian site because its actually run by Norwegian Lesbians!'
