Introduction

Why watch from the sidelines when you can get in on the action? This website does a better job than most at providing you with a point of view that makes you feel like you are the guy in the video. All her eye contact is with you, she speaks only to you... she is there to swallow for you!

Adult Review

Get ready to go on your very own date with a smut starlet. She walks into your room, looks you in the eye and carries on a conversation with you. No cameraman, no other people in the room... just the two of you welcome to do whatever you want. That is the beauty of point of view (PoV) content.

In each clip they film the footage is shot so that it appears to you the viewer that you are actually the man in the scene. Swallow Me PoV does a great job of casting the illusion and when these videos end you will truly feel like it is your load in her mouth as she swallows every last little swimmer.

All of the scenes are well lit and well filmed. None of the scenes use DRM coding so once you download them they are yours to keep forever. All scenes are each offered in a variety of formats that will serve both dialup and broadband users well.

Best of all, take a look at the laundry list of websites on the right side of this review. Every single one of them is included in the membership you get from this website. Full access to so much fucking, sucking and swallowing that your dick will want to call the authorities to complain about your abusive behavior!

The one major drawback to this set of sites is that no trial membership is offered. If you want to get in on all of the action you will have to buy a membership that covers all of the days of the month.

Porn Summary

You may want to go on a diet or start working on your tan, when you watch Swallow Me PoV you will feel like you are a part of the cast and you will want to look your best as you shoot a wad in your co-stars' mouths.
